To Whom It May Concern:

This letter is to recommend the professional services of Jerry Huber as real estate broker.

As architects, our expertise is in knowing how to design, develop, and oversee construction projects. I knew very little about developing real estate. I learned by working with Jerry that there is a lot more to real estate than just the bricks and mortar i.e., market conditions, the price of land in today's market and recommending several due diligence points to the purchase agreement to insure that we weren't buying a property with hidden problems.

Jerry knew what I was looking for in our search and put me in touch with the perfect partners for our office condo. Without Jerry's contacts and knowledge of what his other clients were looking for, our project may not have come together. Jerry worked with us over a two year period until we found the right solution. I feel he was working in our best interest and not just a quick commission.

I enjoyed working with Jerry Huber and would recommend his expertise in the real estate market.

Sincerely,

Cal Hinz, AIA
